IDC will play host to Abhikalpana - National Design Innovation Conference, proposed by Shri Sam Pitroda (Chairman, National Knowledge Commission, Government of India).

The conference will look at innovation as a process driven by a gamut of disciplines including management, engineering and design. It will address the need to focus on innovation as an essential factor for progress of the country.

This will be achieved by using the conference as a platform to not only present projects done in various fields but also to talk about the untapped potential and discuss processes for need based innovation.

This year we will focus on six major areas including innovations in Collaborative Environments, Emerging Economies, Healthcare, Transportation, Education and Design Pedagogy. The conference will showcase case studies by eminent experts from government, industry and academia as well as student projects.
Established in 1958, IIT Bombay today is recognized worldwide as a leader in the field of engineering and research. Harbouring a population of over 10,000 people including students, faculty and general staff, it is reputed internationally for its quality of teaching and outstanding calibre of the students from its graduate and post graduate programs.

Within its lush green premises, the Industrial Design Centre was established in 1979, with a post graduate course in Industrial Design. With the addition of Visual Communication, Animation Design, Interaction Design and most recently, Mobility and Vehicular Design streams, and an intensive PhD program, it is the creative zone of the campus.

IDC alumni have won many accolades over the years and have been recognized as thought leaders in various aspects of design, the most recent being Mr. Uday Kumar, a PhD candidate, who created the rupee symbol.
As an effective platform for new ideas and fruitful collaborations, we at Team DDS believe this offers our partners an excellent opportunity to reach out and communicate with a larger audience. We sincerely believe that your company will be well-represented in DDS 2012, and hope that you will decide to partner with us.

For more information, please feel free to contact us, and our team will get back to you.

Thank you very much for considering a partnership with Design Degree Show, IDC, IIT Bombay.
Modern in design and furnished with world-class facilities and amenities, Nehru Centre is highly sought after as a host for many high-profile exhibitions of both national and international stature. Initiated for the betterment of Science and Technology, it also houses a Culture Wing and an Art Gallery, the venue for our Design Degree Show year after year.
